

Michigan State College
155 Mason Hall

Dear Family,

It's Tuesday morning and I've just finished breakfast and have a couple of hours to myself. Chuck and I have our room all settled and it's swell. The entire dormitory is new, and it's beautiful.

Down in the basement they have ping-pong and pool, and a large lounge, which is very comfortable. Across from the lounge is a grill where they serve sandwiches and milkshakes.

The dining room is large and cheerful and the food is very good and plentiful. Chuck has to eat outside for the first few days until the rest of the upper classmen arrive, however.

Monday morning we were introduced to our advisors and have made out a trial schedule. This is a pain and needs a lot of juggling around before it is right.
Monday afternoon

We took an English test to find out what division we will be placed in. Monday evening we had a precinct meeting and the rules of the dorm. were explained to us by our precinct counselor. Afterwards, I went down to a smoker. ~~and~~ They had movies of last years Michigan - Michigan game.

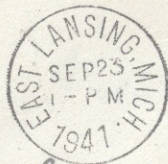

It's hard finding the different buildings as yet, as the campus is so large, a regular city in itself. I am making out well so far.

I've met four or five fellows from Kenner I know; just in the freshman class alone. When the upper classmen arrive I'll probably meet more of them.

I has been very warm up here; in the 80's ~~over~~ in the afternoon ~~sa~~. Today seem a little cooler. My hay fever is worse instead of better so I hope it will turn a little cooler. All and all, however, I'm having a good time which I expect will improve so soon as I become more familiar with the place

Bumps

P.S. The electric razor is the nut
